ABSTRACT

Drowning is one of the commonest causes of unintentional mortality in children, moreover in developing countries. We briefly highlight the 2024 major updates jointly by the American Heart Association (AHA) and the American Academy of Pediatrics (AAP) on resuscitation of drowning victims and the chain of survival.

Keywords: Cardiopulmonary resuscitation (CPR) · Drowning chain of survival · Injury · Rescue breathing

How to access full text of this article for IAP members?

The full text of articles published in the Indian Pediatrics from Jan 2025 onwards will be accessible freely only to the members of the Indian Academy of Pediatrics (IAP). Please follow the following steps to access the articles

Steps

1. Go the Indian Academy of Pediatrics (IAP) website (<https://iapindia.org/>)
2. Login as member using your registered mobile number/ email and your password (<https://iapindia.org/member-login.php>).
3. You will now be directed to <https://iapindia.org/singlelogin/index.php>
4. Scroll down to Indian Pediatrics Current Issue and click the icon. You will be directed to <https://link.springer.com/journal/13312>
5. You will be able to access the desired article
6. In case you have forgotten your password, it can be reset using an OTP sent to your registered mobile number or email address.
7. In case of any difficulty, kindly contact the central office at centraloffice@iapindia.org or Phone: (022) 27710857
8. You may also write to ip.subscription@iapindia.org or jiap@iapindia.org
