repaudio - <http://www.prepaudio.org/>

This is the monthly audio journal from the American Academy of Pediatrics. The website contains audio files of CME programs on Pediatrics, some of which are free. The audio files can be downloaded and played using the popular MP3 format.

Simulconsult Neurological syndromes diagnostic software -<http://simulconsult.com/neurologicalsyndromes/>

This is a software program for diagnosis of neurological syndromes. On entering the

symptoms and signs, Simulconsult suggests the differential diagnosis and the investigations required. The software runs from the web, hence downloads are not necessary and requires registration, which is free. The database has over 1000 diseases. Simulconsult contains videos on how to use the software and case reports on neurology. Contributions are accepted.
