3rd Pediatric Flexible Bronchoscopy Course

Organized by
Division of Paediatric Pulmonology & Sleep, NUH, Singapore

Dates: 24th and 25th October, 2016

Venue: KTP-Advanced Surgical training Centre, National University Hospital, Singapore

Bronchoscopy Course details:

- A Hands-on intensive workshop meant for pediatricians and pediatric Pulmonologists.
- Combination of “hands on” bronchoscopic experience (on animal models) and lectures and video workshops to give an in-depth understanding and exposure to the art of flexible bronchoscopy in children, both for beginners and advanced learners as well.
- The goal is to get the participants confident and ready for performing flexible scopy in practice. Subtle nuances and tips will be discussed. Limited spaces available.

For Registration and details please write to the course organizer Dr Mahesh babu: drmaheshbabu@gmail.com
